

“Why learn a second language?” Assignment

Each table has been assigned an article (see below). The general theme is “Why Learn a Second Language?”. Read your designated article out loud as a table, and make sure everyone is following along. Take turns reading different sections/paragraphs, or designate one person as the reader. Once your table has finished reading, discuss amongst yourselves how you would like to summarize/organize the information. You’re not expected to record 100% of the information on to your poster, as long as you have included the most important points. It is up to your group how you organize your poster - whether you use numbering, bullet points, a graphic web, a cluster of info, drawing pictures, etc. You will be provided a posterboard and art supplies for this assignment. Make sure you put each group member’s name on the back of the poster. In order to receive credit, you must actively participate/contribute to your group. Things to keep in mind are neatness/organization, quality of information/content, creativity, and physical appeal. Make sure to include color!

Students will present their posters as a group in class - as part of their participation grade for the assignment.
